

Center for Spatial Business

About the Speaker

Nikki Paripovich Stifle

Geographic Information Systems Manager - Kohler Company

Nikki Paripovich Stifle believes geographic context is integral to creating opportunity for all organizations. She currently leads the geospatial and data governance capabilities at Kohler Company. Her experience working cross-business and cross-functionally has allowed organizations to utilize resources more optimally, support growth, and provide the desired level of service to the end customer.

Prior to starting at Kohler Co in 2015, Nikki enjoyed ten years working with multinational companies, global nonprofits, and state and local governments at ESRI. Before that she spent five years in marketing in the luxury Health & Wellness space, spent formative time at the EROS Data Center, and served as a Peace Corps volunteer in Estonia. She holds her Master's in GIS from the University of Minnesota and her Bachelor's from the University of St. Thomas.

2020-21 Speaker Series

A Maker's Transformation: From Facilities Management to Market Planning to the Future in GeoAI

Event link will be provided through email after RSVP

University of Redlands Virtual WebEx Speaker Event

Since 1873, Kohler Co. has been improving the level of gracious living by providing exceptional products and services for our customers' homes and their lifestyles. We believe better business and a better world go hand-in-hand. Fueled by the passion of more than 36,000 associates worldwide, we strive to enhance the quality of life for current and future generations through design, craftsmanship and innovation.

It is the advancement of quality and experiences we seek to continue to drive with data and analytics. Whether for operational excellence or customer engagement, Nikki will share the geospatial journey and how developing the vision and engaging cross-functionally is driving stronger service to our customers, faster and more informed decision making, and providing greater opportunity awareness.
